Los Angeles Herald.

CITY AND COUNTY OFFICIAL PAPER.

WEDNESDAY, APRIL 14, 1875.

By an ingenious argument the New York Herald makes out that the spelling-match mania, now prevalent throughout the country, is the beginning of a great moral reform. He who cannot spell correctly dare not write plainly. He who attempts to read an unintelligible scrawl swears. Swearing is immoral and besides leads to anger; anger begets murder, and murder leads to hanging. Moral—learn to spell.

PROBABLY the worst persecuted set of men in the world at this present time are the twelve unfortunates who were impeached as a jury in the BECHER-TILTON trial. The case is now running on its fifteenth week, and still the beginning of the end has not come. Poor mortals! Their brains have been racked and pummeled and turned upside down and shaken and wrung with this dirty-clothes business, until they will doubtless leave the jury-box moral wrecks. And in the face of all this persecution, the Board of Supervisors of King county have refused to allow them more than \$1.50 per day.

An Appeal for Help.

One hundred miles South of Memphis, Tennessee, is the town of Grenada, in Mississippi, in which is the finest institution of learning South of Georgia. It is accessible by rail from every part of the country. The war caught the Institute with a small debt which interest and repairs have swelled to \$20,000. The impoverished community can barely defray current expenses, and is utterly unable to reduce the debt. Yet it is their only hope for an institution in which to educate their young ladies preparatory to becoming teachers, there being no public schools of a high order in the country. The people of the whole South are struggling to rise once more to prosperity, but they need help. They look to California as a more fortunate star for aid, in an enterprise which can hardly be over-estimated. And unless aid is speedily given it is liable to be sold and go into the hands of speculators, thus to pass forever from the hands of the friends of education and progress. Mrs. HALCOMB is the accredited agent of the institution, and is now in our city. She brings with her letters from men of all political parties and all religious denominations. She has one from U. S. GRANT, one from Mayor JAS. OTIS, San Francisco, from B. GRANT BROWN, Missouri, J. P. JONES, Nevada, and each of the ministers, editors and bankers of St. Louis; HORATIO STEBBINS, W. M. GWIN, W. A. SCOTT, D. D., H. A. SAWTLE, A. L. STONE, D. D. Other countries have been heavily taxed to aid the sufferers in Kansas, while we have done but little. Let us respond liberally to this call. Mrs. H. will call upon the citizens.

The Worst Form of Tyranny.

One would suppose that unavoidable afflictions incident to this life ought to be sufficient to gratify the tyrannical principles of our nature, which delights in human suffering; but such is not the case. There is a large percentage of our race tyrants by nature, who are happy only just in proportion as they can make others miserable; and the misery they inflict is only limited by the extent of their power. If clothed with official authority, they delight to make you feel its power. If rolling in wealth, they are austere, cold and distant, and will on all occasions, make you feel what a miserable wretch a poor man is. If their position is no higher than a stage-driver or hotel-keeper, they will make you feel extremely uncomfortable in their presence. Their looks and answers will awe you into submission before you are aware of it, and you leave them with an impression that you have committed some indiscretion that requires an apology. But tyrants do not all occupy positions in life, a circumstance for which mankind should never cease to return thanks. But they are tyrants all the same, and when bereft of all other means of torture, they fall back upon their last resource, which is their looks. At first thought this would appear to be a comparatively harmless means of torturing mankind. "What do we care how people look! that can do us no harm," is the hasty conclusion of the thoughtless. But when we come to consider it in all its bearings, we find it to be a means of torture by which the human family are caused more suffering than from all other modes of torture ever invented. There are a great variety of looks which are painful to behold; such as a sad look, injured look, angry look, sulky look and devilish look, all of which are the result of disappointed ambition. And when you see one of these horrible features, you may rest assured that you are looking upon a man or a woman who, if in possession of power, would be extremely tyrannical. It makes the cold chills run over us to meet one of these despots in the streets, and we often cross the street to avoid facing them; and to converse a half-hour with one of them is no less painful than a dumb-chill and the effect will last for hours. And to be compelled to live in the same house with one of these is the most painful existence on earth except to be in the State prison or lunatic asylum. The gloom that one

sulky or sad countenance can cast over a whole family is the severest affliction that we can imagine and ought to be considered a sufficient cause for divorce. Only think of raising a family of children under a dismal shadow of such a countenance; what could we expect them to be but rogues and out throats. In our extensive acquaintance, we know several husbands and wives who are torturing each other to death with their looks; it may be slow in its results but it is none the less sure. There are several gentlemen in this city whose countenance will cast a shadow over the whole street, and they seem to take extreme delight in presenting their miserable phiz at you on all occasions. We take the ground that people have no right to tyrannize over the world in any such way. We have never been in favor of much law making, but if some means could be invented to put a stop to this species of tyranny, the inventor would be ranked, among the greatest benefactors of mankind. It cannot be cured by resistance for the more you resist a sulky, or injured look, the worse it gets, and to coax it is only yielding in humiliation to it; and though coaxing might palliate it for an hour, it will come at you with renewed vigor when it rises again. It has lived through a hundred generations and thus far there has been no remedy found for it but death.

Presidential Candidates.

The Hon. F. B. Washburne, American Minister at Paris, is reported to have withdrawn from the Presidential canvass. On his face, this looks like a confirmation of the somewhat prevalent belief that President Grant intends himself to be a candidate. It is generally understood that Washburne would be a candidate in the event of the President's retiring, and then as the President's natural successor, if he would name Washburne as a proper man for the position. The dispatch gives no intimation of the influence which have brought Washburne to this condition of mind, but probably the private correspondence between the President and the Minister would make everything sufficiently plain. Whether or not Washburne succeeds in his aim, it is certain that any little thing which indicates that he does not, is a serious blow to the chances of the Philadelphia politicians who placed him in nomination. Now comes the declaration of Washburne, who would not refuse the presidency, if it was within his reach—S. F. Call.

That General Grant will be a candidate for the next Presidency, there is hardly a doubt; and that he will be overwhelmingly defeated at the polls, there is as little doubt. But a majority of two-thirds of the popular vote may not prevent him from being the next President. The cards are stacked—the political deck is well arranged, and he has the shuffle, cut and deal, and will turn up Jack when he pleases. There is no use quibbling at this thing any longer; it is as well to look the situation square in the face at once. Gen. GRANT knows he cannot be elected by the popular vote; and, knowing this, if he intended to obtain the office only on fair terms, he would not run. If he does run, these facts ought to convince every sensible American that he intends to hold the office on some terms. If he can get up a row with Mexico or some other nation, so as to get the army well in hand, he can very easily hold the position in spite of all the votes that may be cast against him. Even a little disturbance in the South would be sufficient to put the army in good trim for the work.

Walking on the Water.

NEW YORK, April 10th.—A Herald special from London says Boynton failed, five miles from France. He was not there, his horse stopped him. He was 15 miles out.

From Salt Lake.

SALT LAKE, April 12th.—The trial of John D. Lee, and W. H. Dame, for connection with the Mountain Meadow massacre, will take place this term. They are now arraigned and pleaded not guilty. Their counsel asked for an immediate trial, but the prosecution was not ready.

Foreign News.

BERLIN, April 12.—The Berlin Post states that its leading article of the 9th instant indicating the possibility of war was not inspired by the Government.

The Pope Against Germany.

PARIS, April 12.—The Pope has made representations to the Emperor of Austria that the position of the Church is becoming more and more intolerable. If the unreasonable demands of Prussia are not resisted by the Catholic Powers, the latter will lose all their influence and become subjects to the German Government, which is endeavoring to bring the whole German nationality under sequestration. The Emperor, replying, deplored the struggle between the Church and State, and advises prudence.

Jury Report on the Late Explosion.

SAN FRANCISCO, April 13th.—The Coroner's Jury in the case of the late explosion, Mayor Otis, the reporters and a number of gentlemen, yesterday witnessed the experiments with giant powder near Golden Gate Park. The city officials showed that the compound may be safely handled, being liable to explode only by the agency of detonating caps used for the purpose. The jury completed its work by rendering a verdict in which they severely censured Mr. Bladen, the contractor, for permitting the manufacture of cartridges in such a neighborhood as that where the explosion took place, and for storing powder and caps on the same premises. It also recommended the passage of an ordinance by the Board of Supervisors forbidding the storage of dynamite in the city limits in quantities of over fifty pounds, or the storage of detonating caps or common powder on the same premises, and prohibiting the transportation of nitro glycerine, through the streets of the city.

General Crook in San Francisco.

SAN FRANCISCO, April 13th.—The review of the Second Brigade and banquet at the Lick House, last night, in honor of General Crook, was a very successful and pleasant affair. The festivities, toasts speeches, etc., were prolonged to a late hour. Many civil and military dignitaries were present. General Crook leaves to-day to take command of the Department of the Platte at Omaha.

NEW TO-DAY.

Bargains! Bargains! Bargains! This is the best opportunity ever offered to the public to get clear at very low prices. We are now selling off our immense stock of goods, including, among others, fancy goods, cigars, tobacco, pipes and all smokers' articles at greatly reduced prices. At our figures they are a bargain. We make it our business to give satisfaction to all our customers, and before purchasing elsewhere, please call on us. We are at 25 Main St., under Backman House, and at 107 Main St., next to W. F. & Co's Express.

Coal Mine Strikes.

HAZLETON, April 10.—Adjutant-General Eaton arrived here to-day, and had a conference with the Sheriff and citizens, under orders of the Governor, relative to the withdrawal of the military asked for by a delegation of citizens, miners and others, who promised the Sheriff a sufficient force to protect the workmen. Subsequently those favoring the detention of the

military met the Adjutant-General and Sheriff, and discussed the gravity of the situation. The Adjutant-General has not yet reported to the Governor the result of his visit. A special policeman from Philadelphia, who had been running pump engines at Eckley, while on this duty, was taken by two men into the woods and threatened with instant death if he did not stop work. One of the men has been arrested and released on bail.

Panama R. R. Co. and Pacific Mail.

NEW YORK, April 10.—A meeting of the joint committees of the Pacific Mail Steamship Company and the Panama Railroad Company was held this afternoon at their offices on Wall street, for the purpose of adjusting points raised between the companies on the question of through freight. The Pacific Mail Company submitted a plan to the Panama Company, which the latter will take to its directors and report the result at a future meeting.

Scott, Vice-President of the Pacific Mail Company, said to-day that he had examined the accounts of the China agent, but had not found the alleged discrepancies in them. He said that the mistake was in the accounts of the agency between Yokohama and Hongkong, had occurred after the China agent had left for this city, where he arrived yesterday.

Washington News.

WASHINGTON, April 12th.—Treasurer Spinner to-day received an autograph letter from the President accepting his resignation as Treasurer of the United States and expressing the warmest sentiments of regard for him personally and high appreciation of his well known probity, patriotism and official ability.

More Strikes.

LOWELL (Mass.), April 10.—The mill superintendents about the idea of treating with the committee of mill-spinners on the question of wages. They express a willingness to talk with their own employees on the subject at one time, but not with deputations or with secret societies. They say they would prefer to shut down for three months rather than accede to the demands of the operatives, and that the rise in goods would more than compensate the loss.

Still in Trouble.

PHILADELPHIA, April 12th.—A detachment of ninety men, of the First Regiment, National Guard, will be sent to Hazelton this afternoon. There is no probability of the troops being recalled.

POTTSVILLE, Pa., April 12th.—

The impression generally prevails here that the strike is nearly ended.

Walking on the Water.

NEW YORK, April 10th.—A Herald special from London says Boynton failed, five miles from France. He was not there, his horse stopped him. He was 15 miles out.

From Salt Lake.

Concert commences at 8 P. M. m181dew ft

A RESOLUTION

Of the Common Council of the City of Los Angeles to protect the Morals of Minor Children in said City.

BE IT RESOLVED,

That the Council of the City of Los Angeles do hereby resolve, that no person shall be allowed to employ any minor child under the age of eighteen years, except when in pursuit of some necessary and lawful business, and then only in the case of a public place, alley, street, gambling house, billiard saloon, house of ill fame or house of prostitution, or in the case of any other place where intoxicating liquors of any kind are sold at retail, at any time within the city of Los Angeles, and including the first of April and including the first of May, between the hours of nine o'clock P. M. and five o'clock A. M. following, and from the first of November to the last of April between the hours of eight o'clock P. M. and five o'clock A. M. following.

Sec. 2. It shall be unlawful for any such minor child, without the consent of the parent or agent of any road-car, engine, truck or other vehicle, to play or loiter about or ride upon any railroad, engine, truck, or other vehicle within the limits of this city.

Sec. 3. Any person violating any of the provisions of this resolution shall, upon conviction thereof, be fined not more than five dollars nor more than twenty dollars, or be imprisoned in the County Jail or other place of confinement not less than one day nor more than twenty days, at the discretion of the Court, or by both such fine and imprisonment.

Sec. 4. The Clerk of the Common Council of the City of Los Angeles shall cause to be published in English in the Los Angeles Daily Herald and in Spanish in the El Comercio, and thereupon it shall take effect and be in force.

I hereby certify that the foregoing resolution was adopted by the Common Council of the City of Los Angeles at its session of April 1, 1875.

Wm. H. Hill, Clerk of Com. Council.

Notice of Intention.

NOTICE IS HEREBY GIVEN THAT the following improvements on Port street from its intersection with Temple street to and including the intersection with First street and including the junction with Court House street

The street shall be graded in the following manner: The road-bed shall be prepared by cutting down or filling the ground to a uniform grade eight inches below the established grade along the centre line of the street and in such manner as to give it a slope of one foot in thirty towards the gutters; the road-bed having been prepared and having been accepted by the City Surveyor, it shall then be surfaced with cement gravel to the depth of eight inches.

The gutters shall be four feet wide and shall be paved with granite cobble stones eight inches long, by four inches in thickness. The centre of the gutter shall be eight inches below the surface of the road-bed, and the sides five inches below the top of the curb, thus giving it a concave shape, the cobble stones to be thoroughly set in sand and well rammed.

The curb shall be of redwood, 32 1/2 inches, spiked to posts of redwood 4 1/2 inches and three feet long, set in the ground on the inside of and two feet below the bottom of the curb. Said posts shall be not less than six feet apart, and in addition on them there shall be a strong iron post set in the same manner at each end of every lot of the curb, to be set at each end of the curb shall be spiked. There shall be a stake of 3 1/2 redwood and two feet long set in the ground at each end of every lot, just outside each post. There shall be a key of 1 1/2 redwood and four feet long nailed with not less than two iron spikes at each end, and connecting the stake to the post; said key to be spiked four inches below the top of the curb. The top of the curb shall be placed two inches below the established grade.

The sidewalks shall be twelve feet wide, and shall be filled in or cut down at the curb to within six inches of the established grade (as may be necessary) with a slope of two inches from the inside of the sidewalk towards the gutter. It shall then be filled in with four inches of cement gravel and properly leveled.

Two box culverts shall be placed across the intersection of Port and First streets, to be made of three-inch redwood. They shall be three feet wide by one foot deep on the inside and to be placed as close as possible to the bottom and sides to be laid longitudinally, the top crossways to be laid at a similar culvert across Franklin street at its junction with Port street.

M. K. RIEBER, Clerk of Com. Council.

NEW ADVERTISEMENTS.

LAND FOR SALE!
